Jakarta, Indonesia

Informatics student and Full-Stack Web Engineer specializing in backend development and system analysis. Experienced in bridging the gap between technical requirements and real-world implementation, from corporate profiles to dynamic campus systems. Proficient in modern frameworks and AI-driven workflows to build scalable web and mobile solutions

Professional Experience & Projects

PT. Saritama Dharma Buana - Jakarta, Indonesia Dec 2025 - Present

IT Development

- Acting as the sole developer for an ongoing corporate web project.
- Responsible for the end-to-end development lifecycle, from structuring the front-end layout to conducting functional testing to digitize their professional service offerings.

CODEPOLITAN - AdamFood Project - Malang, Indonesia Nov 2025 - Dec 2025

Full Stack Engineer

- Engineered a seamless digital ordering platform featuring intuitive cart management and checkout workflows.
- Integrated automated table logging and payment code generation to accelerate order processing.
- Implemented secure QRIS and cash payment tracking mechanisms.

FILKOM UB - NgantinYUK! Project - Malang, Indonesia May 2025 - Jun 2025

Back-End Engineer

- Designed the database schema and developed robust REST APIs for a campus-wide food ordering system.
- Collaborated in a cross-functional team to integrate frontend and backend systems, ensuring strict input validation and bug resolution.

FILKOM UB - Rumah Aman Project - Malang, Indonesia Nov 2025 - Dec 2025

System Analyst

- Architected and analyzed system requirements for an Android application focused on sexual violence prevention.
- Engineered an intelligent digital support ecosystem by integrating a real-time AI chat assistant utilizing the Groq API.

CODEPOLITAN - Adamflix Project - Malang, Indonesia Nov 2025 - Dec 2025

Full Stack Engineer

- Developed a dynamic movie streaming platform featuring subscription tiers and device constraints logic (720p/1080p/4K).
- Integrated Midtrans payment gateway for automated transaction status updates and secure callbacks.

Education

Brawijaya University - Malang, Indonesia Aug 2023 - Aug 2027 (Expected)

Bachelor of Informatics Engineering, 3.59/4.00

Leadership & Organizational Experience

UKM Seni Religi - Malang, Indonesia Jan 2026 - Present

Head of Website Development & Information Systems Division

- Leading the end-to-end development and infrastructure management (VPS, object storage) for the official organizational web platform and inventory tracking system.
- Acting as the Lead System Analyst and Back-End Developer, architecting the core database schema.
- Managing and coordinating a cross-functional development team consisting of a Front-End Developer and a UI/UX Designer to meet project deadlines.
- Collaborating directly with the Media & Communications Department to align the digital platform with organizational goals.

Google Developer Groups (GDGs) on Campus - Brawijaya University - Malang, Indonesia Oct 2024 - Feb 2025

Product Management Member

- Participated in intensive tech and product management workshops to enhance strategic product lifecycle understanding.
- Authored a comprehensive Product Requirements Document (PRD) as a capstone mini-project, detailing system workflows and feature specifications.

Skills, Certifications & Awards

- Programming Languages:** PHP, Python, JavaScript, SQL, Java

- **Frameworks & Libraries:** Laravel, Next.js, Jetpack Compose
- **Core Competencies:** Full-Stack Web Engineering, System Analysis, Backend Architecture, Database Design
- **Certifications**  (2025): Full Stack with Laravel (2025)
- **Certifications**  (2025): Pre-Security (2025)
- **Awards/Achievements**  (2025): Participant at Software Engineering Event 9.0 (2025)
