Product Management: An Introduction

# Kaesar Adam Rafano

Full Stack Web Engineer | Back End Specialist & System Analyst |  
Empowering Development through AI & Vibe Coding  
Jakarta Metropolitan Area

## Summary

Full-stack web developer and system analyst with a passion for building smart, scalable applications. As an Informatics student, I combine solid backend engineering with modern 'vibe coding' leveraging AI tools and API integrations to accelerate workflows, optimize system analysis, and solve complex problems. My experience includes developing AI-integrated chat assistants, corporate systems, and web-based projects for real-world clients. Currently refining my skills in modern web frameworks and mobile development, I am always eager to collaborate and tackle new technological challenges

---

## Experience

MAXY Academy  
Back End Developer Mentee  
January 2026 - Present (4 months)  
Jakarta, Indonesia

Completed an intensive backend engineering bootcamp, focusing on building scalable server-side applications and robust database management. Gained hands-on experience in database architecture, writing optimized SQL queries, and applying core backend security principles (e.g., authentication & authorization). Designed and implemented RESTful APIs using Laravel to facilitate seamless communication between the server and client-side applications. Collaborated in an agile-simulated environment to complete technical capstone projects, ensuring clean code practices and system reliability.

UKM Seni Religi Universitas Brawijaya  
1 year 2 months

Information Technology Development Team Lead  
January 2026 - Present (4 months)  
Kota Malang, Jawa Timur, Indonesia

Leading the end-to-end development and infrastructure management of the official web platform for UKM Seni Religi. Currently architecting a comprehensive digital solution that features a dynamic organization profile and a robust inventory tracking system. Responsible for the overall system analysis, complex database design, and backend deployment using VPS and object storage to ensure high scalability and performance.

#### Co Lead of Fahmil Qur'an

March 2025 - December 2025 (10 months)

Kota Malang, Jawa Timur, Indonesia

Menjabat sebagai Wakil Bidang Fahmil Qur'an

#### PT. Saritama Dharma Buana

Information Technology Development Manager

December 2025 - Present (5 months)

Jl. Delman Utama No.16,Kebayoran Lama Utara, Jakarta Selatan

Acting as the sole developer for an ongoing multi-page corporate website. Responsible for the end-to-end development lifecycle, from structuring the front-end layout to conducting initial functional testing

#### Software Engineer Event 9.0

System Analyst

October 2025 - December 2025 (3 months)

Purwokerto, Indonesia

Participated in SEVENT 9.0, a highly competitive software engineering competition, acting as the system analyst for the "Trajectory" project.

#### Google Developer Groups (GDGs) on Campus - Universitas Brawijaya

Product Management Member

October 2024 - February 2025 (5 months)

Malang, Indonesia

Participated in intensive tech and product management workshops to enhance strategic product lifecycle understanding. Authored a comprehensive Product Requirements Document (PRD) as a capstone mini-project, detailing system workflows and feature specifications.

#### HOLOGY UB

Event Operations Staff

May 2024 - November 2024 (7 months)

Malang, Indonesia

Executed and monitored the operational rundown for HOLOGY 7.0, a major national-level IT event organized by the Faculty of Computer Science, Brawijaya University. Facilitated effective communication between stakeholders, speakers, and attendees, demonstrating strong problem-solving and time-management skills in a fast-paced environment.

Binus Center Bintaro

Software Engineer Intern

August 2021 - October 2021 (3 months)

Jakarta Raya, Indonesia

Completed an intensive programming course at BINUS Center, specializing in C++ and core software engineering principles.

---

## Education

University of Brawijaya

Undergraduate Student in Informatics Engineering, Brawijaya

University, Computer Science · (August 2023)

MA Negeri 4 Jakarta

Ilmu Alam (Natural Sciences) · (July 2020 - March 2023)
