KEY PROJECTS

- **AI Trip Planner - Full-Stack (github.com/damhacker04).** Delivered an end-to-end LLM-powered travel planning app within a 48-hour hackathon sprint, covering frontend UI, REST API, and AI service layer using a live recommendation engine.
- **TDR Seamless Transaction - System Analyst (github.com/SutaSS/TDR-Seamless-Transaction).** Architected a Laravel 12 e-commerce platform serving 3 user roles with Midtrans payment gateway, Telegram Bot real-time notifications, Redis job queues, and Docker + Nginx containerization. Delivered full Postman API docs.

PROFESSIONAL EXPERIENCE

Maxy Academy - Back-End Engineering Trainee · Bootcamp

Feb 2026 - Present

- Intensive back-end engineering bootcamp · Jakarta, Indonesia
- Completed 2 hackathons, delivering AI Trip Planner (Full-Stack) and TDR Seamless Transaction (System Analyst).

Head of Website Development, UKM Seni Religi - Brawijaya University

Jan 2026 - Present

- Led end-to-end development of the org's web platform serving 100+ active members, including VPS provisioning and object storage setup — reducing manual content publishing overhead.
- Architected the core database schema as Lead Back-End Developer, coordinating a 3-person cross-functional team (frontend dev + UI/UX designer) to deliver on schedule.
- Aligned platform features directly with the Media & Communications Department to meet organizational publishing goals.

PT. Saritama Dharma Buana - Full-Stack Developer (Freelance)

Dec 2025 - Present

- Built and deployed a 7-page company profile website (saritama.vercel.app) as sole developer, covering 3 service categories (Pest, Rodent & Termite Control) — replacing zero online presence with a fully production-ready platform.
- Implemented mobile-first responsive design with SEO, WhatsApp CTA, FAQ accordion, project gallery, and a 5-year warranty section, enabling direct digital client engagement from day one.
